

Kings Hose Reel Warranty

Kings Hose Reels are warrantied for 2 years from the invoice date when properly installed, maintained, and operated. The warranty does not cover normal wear and tear, or products that are determined to have been subjected to improper installation or failure to maintain. Common wear and tear components include the inlet swivel, switch, solenoid, motor and internal pipe.

Kings will not be liable for any consequential, incidental, or indirect damages from any cause whatsoever. Equipment and components proven defective upon factory inspection will be replaced free of charge, including freight to the customer. We do not cover the freight to return the product to the factory. No warranty returns without a return authorization will be accepted. The warranty only covers the cost of the replacement of the component - no labor or other costs are covered.
